**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I use Sonic.net because ATT could not provide reliable internet service. I live in a 35 year old community with underground utilities. ATT choose to not provide the service I was paying for. Sonic has been able to provide solid service and true high speed internet and phone service. They use two lines to do this somehow. I asked ATT, before switching, do they offer simukar technology. They said no. I am a small customer and not worth their time. Sonic is doing the job. Please form policies that allow for competitive services at competitive prices. Thank you for listening
